

MEMORANDUM OF UNDERSTANDING
BETWEEN
UNIVERSITY OF MINDANAO, PHILIPPINES
AND
UNIVERSITAS TANJUNGPURA, PONTIANAK, INDONESIA

This Memorandum of Understanding (MOU) forged by and between the University of Mindanao, PHILIPPINES (UM) and Universitas Tanjungpura INDONESIA (UNTAN) aims at fostering academic cooperation and international collaboration under a bilateral Mutual Recognition Initiative (MRI) which consists of the following areas for both universities to explore, design, and implement: (1) Faculty/Staff Fellowship Exchange (Exchange of Visiting Fellows); (2) Student Exchange (short-term or long-term); (3) Joint International Conferences; (4) Joint International Research and Publication; (5) Joint Curriculum Development; and (6) Sharing of Experiences of Mutual Recognition Agreements (MRAs) and Quality Assurance among others.

Depending on the agreement and resources, a combination of initiatives or other areas of cooperation may be explored and implemented simultaneously in the future.

The MOU for the UM-UNTAN MRI shall be focused on the Language Discipline, Institute of Languages, and Teacher Education since both universities have well-established Language / English and Education programs.

This MOU is generally intended to undertake and foster meaningful, long-term international collaboration in several academic initiatives that are beneficial to both universities. It does not obligate either institution to implement specific projects without a separate, mutually agreed upon Memorandum of Agreements (MOAs) or Technical Proposals (TPs) for specific programs and activities under the MRI.

UNIVERSITY OF MINDANAO
